directly on webpages.

Share annotated
articles with others.

SCRIBLE EDU INCLUDES THESE SWEET WRITING FEATURES!

1-Click Citations

scrible automatically extracts relevant information from webpages, pre-fills citation form fields and generates the citation in the right format right on the webpage while you're viewing it. Just click the Citation Button on the scrible Toolbar on the webpage.

1-Click Bibliographies

Select sources in your scrible Library and click Create Bibliography to quickly generate a properly formatted bibliography with 1 click. Select and dynamically update the format (APA, MLA, etc.) in real time using the dropdown menu on the left.

Google Docs Integration

- Full-text search your scrible Library from within Google Docs while you're writing.
- Insert annotations and corresponding inline citations into your paper with 1 click.
- Stop worrying about the bibliography. It's automatically maintained for you.
- Choose and switch citation formats easily from a simple dropdown menu.
