“PARENT VOICES”

Led by RJUHSD Staff, this is a three-part series addressing equity and access issues in our community.

We hope to listen and gather perspectives from staff, students and community members related to RJUHSD's efforts and progress in **creating safe and equitable spaces** for learning for all students.

Our goal is to **foster understanding, compassion and awareness** in the RJUHSD community regarding the different lens in which our world is seen and addressed.

Offered in partnership with
