Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Roseville Joint Union High School District, as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise Roseville Joint Union High School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Roseville Joint Union High School District, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that *Management's Discussion and Analysis* on pages 4 to 14 and the Required Supplementary information, such as the General Fund Budgetary Comparison Schedule, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 51 to 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Roseville Joint Union High School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 12, 2020 on our consideration of Roseville Joint Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Roseville Joint Union High School District's internal control over financial reporting and compliance.

**ROSEVILLE JOINT UNION HIGH SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

This section of Roseville Joint Union High School District's annual financial report presents management's discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2020. Please read it in conjunction with the Independent Auditor's Report presented on pages 1 through 3 and the District's financial statement, which immediately follow this section.

USING THIS ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and Statement of Activities, presented on pages 15 and 16, provide information about the activities of the District as a whole and present a long-term view of the District's finances. The fund financial statements for governmental activities, presented on pages 17 through 23, provide information about how District services were financed in the short-term, and how much remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside the District.

FINANCIAL HIGHLIGHTS

- For the Governmental Activities programs, total current year revenues exceeded total current year expenses by \$2,379,943.
- Capital assets, net, increased by \$77,254,884 primarily due to an increase in work-in-progress for West Park High School and the Roseville High School Small Gym.
- The District's 2019/20 P2 Average Daily Attendance increased by 121.81 or 1.23% over 2018/19.
- The District maintains sufficient reserves for a district of its size. It meets the state required minimum reserve for economic uncertainty of 3% of general fund expenditures, transfers out, and other uses (total outgo). During fiscal year 2019/20, General Fund expenditures and other financing uses totaled \$126,649,770.
- The ending fund balance (EFB) for the General Fund at June 30th was \$23,915,632. This includes a 3% reserve for state required economic uncertainties and a 3% board reserve for economic uncertainties. The combined reserves for economic uncertainties total \$7,588,430. The EFB also includes \$7,173,766 which is a combination of legally restricted categorical carryovers, unrestricted categorical, site base budget, and other department carryovers, and non-spendable revolving cash and prepaid items. The remaining \$9,153,437 of EFB is unappropriated, but is going to be used to offset potential future year deficits.

THE FINANCIAL REPORT

The full annual financial report consists of the following: Management's Discussion and Analysis, the basic financial statements, supplementary information, and required supplementary information. The four sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from two different perspectives, district-wide and funds.

- District-wide financial statements, which comprise the first two statements of Statement of Net Position and Statement of Activities, provide both short-term and long-term information about the District's overall financial position.
- Individual parts of the District, which are reported as fund financial statements, comprise the remaining statements.
 - ❖ Basic services funding is described in the governmental funds statements. These statements include short-term financing and identify the balance remaining for future spending.
 - ❖ Financial relationships, for which the District acts as an agent or trustee for the benefit of others to whom the resources belong, are presented in the fiduciary funds statements.

Notes to the financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. The required supplementary information provides further explanations and provides additional support for the financial statements. A comparison of the District's budget for the year is included.

Reporting the District as a Whole

The District as a whole is reported in the District-wide statements and uses accounting methods similar to those used by companies in the private sector. All of the District's assets and liabilities are included in the Statement of Net Position. The Statement of Activities reports all of the current year's revenues and expenses regardless of when cash is received or paid.

The District's financial health or position (net position) can be measured by the difference between the District's assets and liabilities.

- Increases or decreases in the net assets of the District over time are indicators of whether its financial position is improving or deteriorating, respectively.
- Additional non-financial factors such as the condition of school buildings and other facilities, and changes in the property tax base of the District need to be considered in assessing the overall health of the District.

FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

THE FINANCIAL REPORT (CONTINUED)

In the Statement of Net Position and the Statement of Activities, we divide the District into two categories of activities:

Reporting the District as a Whole

Governmental Activities:

The basic services provided by the District, such as regular and special education, administration, and transportation are included here, and are primarily financed by property taxes and state formula aid. Non-basic services, such as child nutrition are also included here, but are financed by a combination of state and federal contracts and grants, and local revenues.

Business-type Activities:

The District does not provide any services that should be included in this category.

Reporting the District's Most Significant Funds:

The District's fund-based financial statements provide detailed information about the District's most significant funds. Some funds are required to be established by State law and bond covenants. However, the District establishes many other funds as needed to control and manage money for specific purposes.

Governmental Funds

The major governmental funds of Roseville Joint Union High School District are the General Fund, the Building Fund, and the Bond Interest and Redemption Fund. Governmental fund reporting focuses on how money flows into and out of the funds and the balances that remain at the end of the year. A modified accrual basis of accounting measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and services. Governmental fund information helps to determine the level of financial resources available in the near future to finance the District's programs.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds on a full accrual basis. These include both Enterprise funds and Internal Service funds. Enterprise funds are considered business-type activities and are also reported under a full accrual method. This is the same basis as business-type activities; therefore, no reconciling entries are required. Internal service funds are reported with the Governmental Funds. The District has no funds of this type.

FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

THE FINANCIAL REPORT (CONTINUED)

Fiduciary Funds

The District is the trustee, or fiduciary, for its scholarship, warrant pass-through, and student activity funds. All of the District's fiduciary activities are reported in separate Fiduciary Statements. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance their operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

GOVERNMENTAL ACTIVITIES

The District's net position increased from \$118,249,836 at June 30, 2019 to \$120,629,779 at June 30, 2020; an increase of \$2,379,943 or 2.01%.

Capital assets, net of depreciation increased by \$77,254,884, a 25.05% increase, primarily due to an increase in work-in-progress for West Park High School and the Roseville High School Small Gym.

All of the District's facilities and other assets are extremely well maintained. The capital improvement plan has consistently included modernization, upgrading, and new construction at all of our campuses such that the District's facilities overall are regarded as among the highest quality in the region.

Totals	<u>\$ 355,143,968</u>	<u>\$ 337,889,804</u>

The table reflects that a majority of the District's debt is issued in support of school construction to meet the District's enrollment growth. The district received updated bond ratings in June 2020 from S&P. S&P's assigned the district an overall A+ rating. The district has received similar bond ratings in the past. Bond rating agency rationale included:

- Participation in the broad and diverse Sacramento economy
- Strong to very strong property income indicators, coupled with extremely strong market value per capita
- Trend of very strong available (assigned and unassigned) reserve levels
- Stable average daily attendance (ADA) levels, which drive operating revenues under the state funding formula

Bond debt -- combined with developer fee revenue and state construction funds – has been used for:

- Prior site facility construction.
- Technology improvements to infrastructure systems.
- Various identified modernizations/additions throughout the District.
- Purchase of school site property and construction for West Park High School.

Totals	\$ 64,660,459	\$ 118,399,652	\$ (53,739,193)

As can be seen in the scheduled fund balances, the District has a number of very different funds within which District programs operate. The General Fund has historically had a fund balance in excess of the state required reserve of 3%.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

- The 2020/21 General Fund original budget reflects a \$2,698,276 deficit. The district will develop one-time and on-going spending plans in the 2020/21 fiscal year based on a three-year projection of revenues and expenses.
- The uncertainty of the economic effects of COVID-19 (see below).

COVID-19 IMPACTS

Beginning around December 2019, a novel strain of coronavirus surfaced and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and financial results of the District could be materially adversely affected, including a reduction in the level of funding and impact to the timing of cash flows. While there was no material impact through the year ended June 30, 2020, the extent to which the coronavirus may impact financial activity will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2020

Total fund balances - Governmental Funds \$ 64,660,459

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used for governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of the assets is \$494,982,715 and the accumulated depreciation is \$109,354,376 (Note 4). 385,628,339

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at June 30, 2019 consisted of (Note 5):

General Obligation Bonds	\$ (202,127,570)	
Accreted interest	(11,822,215)	
Unamortized premiums	(15,838,016)	
Capitalized Lease Obligations	(1,297,246)	
Net pension liability (Notes 7 and 8)	(123,535,000)	
Compensated absences	<u>(523,921)</u>	
		(355,143,968)

In governmental funds, deferred inflows and deferred outflows of resources resulting from defeasance of debt are not recorded. In governmental activities, for advance refundings resulting in defeasance of debt reported in governmental activities, the difference between reacquisition price and the net carrying amount of the retired debt are reported as deferred inflows or deferred outflows of resources. 3,928,494

In government funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported (Notes 7 and 8).

Deferred outflows of resources relating to pensions	\$ 33,195,848	
Deferred inflows of resources relating to pensions	<u>(8,471,000)</u>	
		24,724,848

Unmatured interest is not recognized until it is due and, therefore, is not accrued as a payable in governmental funds. (3,168,393)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Roseville Joint Union High School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

Reporting Entity: The Board of Trustees is the level of government which has governance responsibilities over all activities related to public school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District receives funding from local, state and federal governmental sources and must comply with all the requirements of these funding source entities.

The District has reviewed criteria to determine whether other entities with activities that benefit the District should be included within its financial reporting entity. The criteria include, but are not limited to, whether the entity exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), the scope of public service, and a special financing relationship.

The District and the Roseville Joint Union High School District Financing Corporation (the "Corporation") have a financial and operational relationship that meets the reporting entity definition criteria for inclusion of the Corporation as a component unit of the District. Accordingly, the financial activities of the Corporation have been included in the basic financial statements of the District.

The following are those aspects of the relationship between the District and the Corporation which satisfy the inclusion criteria:

Accountability

1. The Corporation's Board of Directors were appointed by the District's Board of Trustees.
2. The District is able to impose its will upon the Corporation, based on the following:
 - All major financing arrangements, contracts, and other transactions of the Corporation must have the consent of the District.
 - The District exercises significant influence over operations of the Corporation, as the District is the sole lessee of all facilities owned by the Corporation. Likewise, the District's lease payments are the sole revenue source of the Corporation.
3. The Corporation provides specific financial benefits or imposes specific financial burdens on the District based upon the following:
 - Any deficits incurred by the Corporation will be reflected in the lease payments of the District.
 - Any surpluses of the Corporation revert to the District at the end of the lease period.
 - The District has assumed a "moral obligation", and potentially a legal obligation, for any debt incurred by the Corporation.

ROSEVILLE JOINT UNION HIGH SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Scope of Public Service - The Corporation is a nonprofit public benefit corporation incorporated under the laws of the State of California and recorded by the Secretary of State in June 1991. The Corporation was formed for the sole purpose of providing financing assistance to the District for construction and acquisition of Woodcreek High School. The District occupies all Corporation facilities under lease-purchase agreements. At the end of the lease term, title to all Corporation property will pass to the District for no additional consideration.

Financial Presentation - For financial presentation purposes, the Corporation's financial activity has been blended with the financial data of the District. The basic financial statements present the Corporation's financial activity within the General Fund.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and the Statement of Change in Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program Revenues - Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of Indirect Expenses - The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

A - Major Funds:

General Fund: The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

Building Fund: The Building Fund is a capital projects fund used to account for resources used for the acquisition of capital facilities by the District.

Bond Interest and Redemption Fund: The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

B - Other Funds:

Special Revenue Funds: The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This classification includes the Adult Education, Cafeteria, Deferred Maintenance and Pupil Transportation Equipment Funds.

Capital Projects Funds: The Capital Projects Funds are capital projects funds, used to account for resources used for the acquisition and construction of capital facilities by the District. This classification includes the Capital Facilities and Special Reserve for Capital Outlay Projects Fund.

Scholarship Fund: The Scholarship Fund is a trust fund used to account for assets held by the District as Trustee, to provide financial assistance to students of the District.

Agency Funds: Agency Funds are used to account for assets of others for which the District acts as an agent. The Warrant Pass-Through Fund represents a payroll clearing account with funds held at the Placer County Office of Education for the accrued payroll liability as of June 30, 2020. All cash activity and assets of the various student bodies of the District are accounted for in the Student Body Account. For Student Body Accounts, individual totals by school and club are maintained within the District's accounting system.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accrual: Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible in the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

Budgets and Budgetary Accounting: By state law, the Board of Trustees must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

Receivables: Receivables are generally made up of amounts due from the State of California and Categorical programs. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2020.

Stores Inventory: Stores inventory in the Cafeteria Fund is valued at latest invoice cost and consists primarily of consumable supplies. No inventory records are maintained throughout the year. A physical inventory is performed on June 30 and the inventory and expense account balances are adjusted to reflect the physical count at year end.

Capital Assets: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 5 - 50 years depending on asset types.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding reported, which is in the Statement of Net Position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Also, the District has recognized a deferred outflow of resources relate to recognition of the net pension liability reported in the Statement of Net Position.

ROSEVILLE JOINT UNION HIGH SCHOOL DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability reported which is in the Statement of Net Position.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate.

Pension expense	\$ 20,413,761	\$ 6,891,104	\$ 27,304,865

Compensated Absences: Compensated absences totaling \$523,921 are recorded as a liability of the District. The liability is for the earned but unused benefits.

Accumulated Sick Leave: Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure in the period taken since such benefits do not vest nor is payment probable; however, sick leave benefits are accumulated for each employee and unused sick leave is added to the creditable service period for calculation of retirement benefits for certain STRP and PERF B employees when the employee retires.

Unearned Revenues: Revenues from federal, state and local special projects and programs are recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position: Net position is displayed in three components:

1. Net Investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriable for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. The restriction for scholarships represents the portion of net position available for the payment of scholarships. It is the District's policy to use restricted net position first when allowable expenditures are incurred.
3. Unrestricted Net Position – All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, Fund Balance Reporting and Governmental Fund Type Definitions (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance:

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, prepaid expenditures and stores inventory.

B - Restricted Fund Balance:

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary trust fund statements.

C - Committed Fund Balance:

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Trustees is required to remove any commitment from any fund balance. As of June 30, 2020 the District had no committed fund balance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D - Assigned Fund Balance:

The assigned fund balance classification reflects amounts that the District's Board of Trustees has approved to be used for specific purposes, based on the District's intent related to those specific purposes. The Board of Trustees can designate personnel with the authority to assign fund balances. However, as of June 30, 2020 no such designation has occurred.

E - Unassigned Fund Balance:

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Trustees. At June 30, 2020, the District has not established a minimum fund balance policy nor has it established a stabilization arrangement.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of January 1. Taxes are due in two installments on or before November 15 and March 15. Unsecured property taxes are due in one installment on or before August 31. The Counties of Sacramento and Placer bill and collect taxes for the District. Tax revenues are recognized by the District when received.

Encumbrances: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2020 consisted of the following:

	<u>Governmental Activities</u>	<u>Fiduciary Activities</u>
Pooled Funds:		
Cash in County Treasury	\$ 67,951,349	\$ 2,946,221
Deposits		
Cash on hand and in banks	6,810	1,261,056
Revolving cash fund	9,375	-
Total	\$ 67,967,534	\$ 4,207,277

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Placer County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments or related custodial credit risk classifications is required.

In accordance with applicable state laws, the Placer County Treasurer may invest in derivative securities with the State of California. However, at June 30, 2020, the Placer County Treasurer has represented that the Pooled Investment Fund contained no derivatives or other investments with similar risk profiles.

Deposits: Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2020, the carrying amount of the District's accounts was \$1,277,241, and the bank balance was \$1,634,186, of which \$250,000 was fully covered by the FDIC insurance and \$1,384,186 was uninsured.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2020, the District had no significant interest rate risk related to cash and investments held.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2020, the District had no concentration of credit risk.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com/comprehensive-annual-financial-report>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for any 36 consecutive months of credited service.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state's General Fund as contributions to CalSTRS on behalf of employers. The bill requires portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2020–21, respectively. The remaining portion of the contribution, approximately \$1.6 billion, was allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program.

California Assembly Bill 84, Chapter 16, Statutes of 2020, (AB 84) was signed into law in June 2020 and revised certain provisions of Teachers' Retirement Law enacted by SB 90. Specifically, AB 84 repurposed the aforementioned \$1.6 billion contribution originally intended to reduce employers' long-term liabilities, to further supplant employer contributions through fiscal year 2021–22. Pursuant to AB 84, employers will remit contributions to CalSTRS based on a rate that is 2.95% less than the statutory rate for fiscal year 2020–21 and 2.18% less than the rate set by the board for fiscal year 2021–22. Any remaining amounts must be allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program. The rate reduction for fiscal year 2019-20 under SB 90 was not changed by AB 84. The employer contribution rates set in statute and the CalSTRS board's authority to adjust those rates starting in fiscal year 2021–22 under the CalSTRS Funding Plan were not changed by the passage of SB 90 or AB 84. A summary of statutory contribution rates and other sources of contributions to the DB Program are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2019-2020. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2019-2020.

In general, member contributions cannot increase unless members are provided with some type of "comparable advantage" in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this "comparable advantage," the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

Employers – 17.10 percent of applicable member earnings. This rate reflects the original employer contribution rate of 18.13 percent under AB1469, reduced for the 1.03 percentage points to be paid on behalf of employers pursuant to SB 90.

Pursuant to AB 1469, employer contributions will increase from a prior rate of 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The legislation also gives the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS employer contribution rate increases effective for fiscal year 2019-2020 through fiscal year 2045-46 are summarized in the table below:

<u>Effective Date</u>	<u>Prior Rate</u>	<u>Increase</u>	<u>Total</u>
July 01, 2019	8.25%	9.88%	17.10% ⁽¹⁾
July 01, 2020	8.25%	10.85%	16.15% ⁽¹⁾
July 01, 2021	8.25%	(2)	(2)
July 01, 2022 to June 30, 2046	8.25%	(2)	(2)
July 01, 2046	8.25%	Increase from prior rate ceases in 2046-47	

- (1) Pursuant to SB 90 and AB 84, the fiscal year 2018-19 state contribution of approximately \$2.2 billion made in advance on behalf of employers will be used to pay the contributions required by employers for the 2019-20, 2020-21 and 2021-22 fiscal years, such that employers will remit 1.030%, 2.950% and 2.180% less, respectively, than is required by the CalSTRS Funding Plan.
- (2) The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down 1% each year, but no higher than 20.25% total and no lower than 8.25%.

The District contributed \$9,678,887 to the plan for the fiscal year ended June 30, 2020.

State – 10.328 percent of the members' creditable earnings from the fiscal year ending in the prior calendar year.

Also, as a result of AB1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The state's base contribution of the Defined Benefit Program is calculated based on creditable compensation from two fiscal years prior. The state rate increased to 5.811% on July 1, 2019, to continue paying down the unfunded liabilities associated with the benefits structure that was in place in 1990 prior to certain enhancements in benefits reductions in contributions. Additionally, the enactment SB 90 will result in future supplemental contributions to be made by the state to pay down its portion of the unfunded actuarial obligation of the Defined benefit Program in fiscal years 2019-20 through 2022-23.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS state contribution rates effective for fiscal year 2019-20 and beyond are summarized in the table below.

<u>Effective Date</u>	<u>Base Rate</u>	<u>AB 1469 Increase For 1990 Benefit Structure</u>	<u>SBMA Funding⁽¹⁾</u>	<u>Total State Appropriation to DB Program</u>
July 01, 2019	2.017%	5.811%	2.50%	10.328% ⁽²⁾
July 01, 2020	2.017%	5.811% ⁽³⁾	2.50%	10.328% ⁽²⁾
July 01, 2021 to June 30, 2046	2.017%	(4)	2.50%	(4)
July 01, 2046 and thereafter	2.017%	(5)	2.50%	(5)

(1) This rate does not include the \$72 million reduction in accordance with Education Code Section 22954.

(2) This rate does not include the \$2.2 billion supplemental state contribution on behalf of employers pursuant to SB 90.

(3) In May 2020, the CalSTRS board exercised its limited authority to increase the state contribution rate by 0.5% of the creditable compensation effective July 1, 2020. However, pursuant to AB 84, the state suspended the board's rate-setting authority for state contributions for fiscal year 2020–21, thereby negating the board's rate increase of 0.5%.

(4) The CalSTRS board has limited authority to adjust state contribution rates annually through June 30, 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure would be reduced to 0 percent.

(5) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining 1990 unfunded actuarial obligation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 92,503,000
State's proportionate share of the net pension liability associated with the District	<u>52,467,000</u>
Total	<u>\$ 144,970,000</u>

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts and the State. At June 30, 2019, the District's proportion was 0.102 percent, which was an increase of 0.002 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$20,413,761 and revenue of \$8,483,290 for support provided by the State. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 234,000	\$ 2,607,000
Changes of assumptions	11,700,000	-

Contributions made subsequent to measurement date	<u>9,678,887</u>	<u>-</u>
Total	<u>\$ 25,797,887</u>	<u>\$ 8,152,000</u>

\$9,678,887 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>	
2021	\$ 2,412,083
2022	\$ (58,917)
2023	\$ 1,968,083
2024	\$ 3,270,083
2025	\$ 325,834
2026	\$ 49,834

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2019 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2018 and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2018, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2018
Experience Study	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB
Not applicable for DBS/CBB	

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. The actuarial investment rate of return assumption was adopted by the CalSTRS board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term* Expected Real Rate of Return</u>
Global Equity	47%	4.80%
Fixed Income	12	1.30
Real Estate	13	3.60
Private Equity	13	6.30
Absolute Return / Risk Mitigating Strategies	9	1.80
Inflation Sensitive	4	3.30
Cash / Liquidity	2	(0.40)

* 20-year geometric average

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Decrease <u>(6.10%)</u>	Current Discount Rate <u>(7.10%)</u>	1% Increase <u>(8.10%)</u>
District's proportionate share of the net pension liability	<u>\$ 137,745,000</u>	<u>\$ 92,503,000</u>	<u>\$ 54,989,000</u>

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER'S RETIREMENT FUND B

General Information about the Public Employer's Retirement Fund B

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at:

<https://www.calpers.ca.gov/docs/forms-publications/cafr-2019.pdf>.

Benefits Provided: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when districts first join PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2020 were as follows:

Members - The member contribution rate was 7.00 percent of applicable member earnings for fiscal year 2019-2020.

Employers - The employer contribution rate was 19.72 percent of applicable member earnings.

The District contributed \$3,291,961 to the plan for the fiscal year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$31,032,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2019, the District’s proportion was 0.106 percent, which was an increase of 0.001 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$6,891,104. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 2,254,000	\$ -
Changes of assumptions	1,477,000	-

Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.50% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS’ website.

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>Long-Term* Assumed Asset Allocation</u>	<u>Expected Real Rate of Return Years (1-10)⁽¹⁾</u>	<u>Expected Real Rate of Return Years 11+⁽²⁾</u>
Global Equity	50%	4.80%	5.98%
Fixed Income	28	1.00	2.62
Inflation Assets	-	0.77	1.81
Private Equity	8	6.30	7.23
Real Assets	13	3.75	4.93
Liquidity	1	-	(0.92)

* 10-year geometric average

(1) An expected inflation rate of 2.00% used for this period.

(2) An expected inflation rate of 2.92% used for this period.

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS’ website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan’s asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1% Decrease <u>(6.15%)</u>	Current Discount <u>Rate (7.15%)</u>	1% Increase <u>(8.15%)</u>
District’s proportionate share of the net pension liability	<u>\$ 44,731,000</u>	<u>\$ 31,032,000</u>	<u>\$ 19,668,000</u>

Pension Plan Fiduciary Net Position: Detailed information about the pension plan’s fiduciary net position is available in the separately issued CalPERS financial report.

NOTE 9 - JOINT POWERS AGREEMENTS

Schools Insurance Group: The District is a member of a Joint Powers Authority, Schools Insurance Group (SIG), for the operation of a common risk management and insurance program. The Authority is governed by a Governing Board consisting of representatives of member districts. The Governing Board controls the operations of SIG, including selections of management and approval of operating budgets. The JPA provide first dollar coverage and insure risk up to statutory limits. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal year. There have been no significant reductions in insurance coverage from coverage in the prior year.

Condensed financial information for SIG for the year ended June 30, 2019 (most recent information available):

Total assets	\$ 104,966,647
Deferred outflows of resources	\$ 302,925
Total liabilities	\$ 38,704,856
Deferred inflows of resources	\$ 68,338
Total net position	\$ 66,496,378
Total revenues	\$ 92,255,000
Total expenditures	\$ 91,961,717
Change in net position	\$ 293,283

NOTE 10 - CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

Also, the District has received federal and state funds for specific purposes that are subject to review or audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements will not be material.

Construction Commitments: As of June 30, 2020, the District has \$7.9 million in outstanding commitments on construction contracts.

NOTE 11 – COVID-19 IMPACT

In December 2019, a novel strain of coronavirus surfaced (COVID-19) and spread around the world, with resulting business and social disruption. In response to the pandemic and in compliance with various state and local ordinances, the District closed physical campuses and transitioned to a distance learning model. On March 13, 2020, the Governor of California issued Executive Order N-26 – 20, guaranteeing state funding to support the continued payment of salaries and benefits to all employees through June 30, 2020.

The operations and business results of the District could be materially adversely affected in the future including a reduction in the level of funding and impact to the timing of cash flows. In addition, significant estimates may be materially adversely impacted by national, state and local events designed to contain the coronavirus. Debt ratings for outstanding issuances may further be impacted. For the 2021 school year, the District is offering instruction in formats consistent with local health guidelines. Throughout the pandemic the District has put into practice a number of safety measures to protect students and employees and will continue to revise them as needed.

ROSEVILLE JOINT UNION HIGH SCHOOL DISTRICT
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2020

NOTE 1 - PURPOSE OF SCHEDULES

A - Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

C - Schedule of the District's Contributions

The Schedule of District Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10- year trend is compiled, governments should present information for those years for which information is available.

D - Changes of Benefit Terms

There are no changes in benefit terms reported in the Required Supplementary Information.

E - Changes of Assumptions

The discount rate for Public Employer's Retirement Fund B was 7.65, 7.65, 7.15, 7.15, 7.15 and percent in the June 30, 2014, 2015, 2016, 2017 and 2018 actuarial reports, respectively.

The following are the assumptions for State Teachers' Retirement Plan:

<u>Assumption</u>	<u>Measurement Period</u>				
	<u>2019</u>	<u>2018</u>	<u>2017</u>	<u>2016</u>	<u>2015</u>

NOTE 1 - PURPOSE OF SCHEDULES

A - Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

B - Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206. The District submitted a COVID-19 School Closure Certification with the State Superintendent of Public Instruction (SSPI) in connection with the effected school days impacted by COVID-19. The Certification was submitted to the SSPI on June 30, 2020.

C - Schedule of Expenditure of Federal Awards

The Schedule of Expenditure of Federal Awards includes the federal award activity of Roseville Joint Union High School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Expenditures are recognized following the cost principles in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

D - Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

E - Schedule of Financial Trends and Analysis - Unaudited

This schedule provides trend information on fund balances, revenues, expenditures and average daily attendance, as required by the State Controller's Office.

F - Schedule of Charter Schools

This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

NOTE 2 - EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14502 requires certain disclosures in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2020, the District did not adopt such a program.

We did not perform any procedures related to Independent Study-Course Based because the District does not offer this program.

We did not perform any procedures related to charter schools because the District does not include any charter schools in their financial statements.

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations, as listed above.

Auditor's Responsibility

Our responsibility is to express an opinion on Roseville Joint Union High School District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* (Audit Guide). Those standards and the Audit Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Roseville Joint Union High School District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Roseville Joint Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Roseville Joint Union High School District's compliance.

Opinion on Compliance with State Laws and Regulations

In our opinion, Roseville Joint Union High School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2020.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Trustees
Roseville Joint Union High School District
Roseville, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Roseville Joint Union High School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Roseville Joint Union High School District's basic financial statements, and have issued our report thereon dated November 12, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Roseville Joint Union High School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Roseville Joint Union High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Roseville Joint Union High School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Roseville Joint Union High School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Board of Trustees
Roseville Joint Union High School District
Roseville, California

Report on Compliance for Each Major Federal Program

We have audited Roseville Joint Union High School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Roseville Joint Union High School District's major federal programs for the year ended June 30, 2020. Roseville Joint Union High School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Roseville Joint Union High School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Roseville Joint Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Roseville Joint Union High School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Roseville Joint Union High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

(Continued)

Report on Internal Control Over Compliance

Management of Roseville Joint Union High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Roseville Joint Union High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Roseville Joint Union High School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
