Antelope Community:

12/17/2021

As a follow up to my email from last night, I want to assure you that we are working diligently with our district technology department and local law enforcement to track down and identify the origination of the inappropriate email communications.

There was concern that the communications sent out to the Antelope community were from two Antelope High School students. After detailed investigation of the facts and conversations with the individuals, we have determined that the inappropriate messages did not originate with these students. The Antelope students and their families have been incredibly willing to work with us and have been helpful in our investigation.

We are and will continue to work with local law enforcement agencies to track down the individuals responsible for the inappropriate email communications. The Roseville Joint Union High School District takes all safety concerns seriously and our student and staff safety is our number one priority.

As an added layer of precaution, we are going to be instituting additional technology security measures for our student accounts that include the following two protocols:

1. Every student will have a password change for their account.
2. Every student will go through a multi factor authentication, a process where the user has to provide two or more verification factors, typically a cell phone number or alternate email address. This will add an additional security measure to our student accounts.

Thank you again for your patience, care and concern regarding this serious matter. We take the safety of our students and staff seriously.

If you have any questions or concerns, please continue to reach out to me.

Thank you,

Mr. Guzman
Principal
Antelope High School
