Progress reports coming out soon. Journalism is going to be putting a 24 pg magazine, have the Norse Notes posting every day. Big competition for the canned food drive.

    - ii. Safety committee talked about Homecoming and about the need for supervision in comparison to the students who were present. Making sure the appropriate amount of admin, teachers, and police officers are all there to keep students safe. Drills are going well. We are also going to have a drill about the evacuation to a safe place.

- i. Last ELAC meeting was Oct 14th. Next one is next week with Ochoa and Parasad. Talk about the restructuring of ELAC and the release period. Talked about attendance protocols and translation services. Had questions about resources, so they went over resources on campus as well as clubs and other aspects of campus. Last week a newsletter went out to the staff about what is happening with ELAC. Spotlight instructional practices and assets of students in that newsletter, allow for it to also connect to EL Rise. Continuing with the wellness lessons which are pushing into ELD intervention.

A. Need to check in with district about the process of changing since normally school plan needs approval from the district.

VII. How can we utilize this for next year, especially for the funding process?

VIII. Elective showcase is there as well.

Proposal is to put the highlighted sections with the strategies, dollar amounts, and code for a working document to be able to clearly look at the school plan for developing the next school year. Staff has not really seen the school plan, so we work on a digestible format for the staff. Will look at it a little each meeting so that at the end of year we will have a revised plan that is easier to assemble the new school year plan.
